

## Report on

### 1.2.4 Sensitize parents on the importance of education and child rights in collaboration with education department

#### **Background –**

It is true that a child feels safe at his/her home and closely attach with the parents. He learns a lot of things from parents, family members and people surroundings in the community. It is said that Child's first school is his/her home and first teacher is his/her parents.

It is our duty to care the children properly for their physical, mental and intellectual development and it should be observed regularly and should be support in their learning so that the children get right information and be away from bad things.

The parents who are educated or not educated, can teach a lot of things at their own level using household items, through play, poems and stories or by discussing with children.

Therefore, CUTS organized a one-day training program on 28<sup>th</sup> of May, 22 to sensitize the eligible parents who have little child or newly married about child protection, importance of education and method to teach at own level.

#### **Objective –**

- To sensitize the parents on the issue of child protection and importance of education;
- Mobilize them to create a supportive and safe environment for the children;
- Measure regularly the development of child in the term of various aspects i.e., physically, mentally and intellectually;
- They become able to teach the children at household level using various tools

#### **Venue & date**

Hotel Poonam Palace, Pratapgarh on 28<sup>th</sup> of May, 22

#### **Participants**

Total 50 eligible parents from Limbodi village and 4 project staff

#### **Proceeding –**

Ms Sanju Massar Field Facilitator heartily welcomed the participants and share the agenda of the training and an introduction session was facilitated by Ms Massar giving a little piece of paper to every participant on which the name of an object was written. The participants read the word, sound out of that object and introduce themselves with their name and like dislike.

Next session was facilitated by Mr Kamlesh Jangid Program Coordinator, sharing about the objectives of the project and its activities to be performed within the project timeline.

Next session was facilitated by Mr Mukesh Singhal, MIS Coordinator, the participants were divided into five groups and gave them a task providing two pictures of child related issues. The participants discussed into their groups and wrote down their understanding seeing the both pictures, listed out forms of violence towards children in their field and what are the solution as per their views. After discussion, each group presented what they understood seeing pictures.

After group presentation, Mr Singhal facilitated a session on Child rights and protection through a presentation. He explained that there are four major rights for children i.e., Rights of Survival; Rights of Development; Rights of Safety and Rights of Participation and other constitutional rights that are provided to a common citizen. He discussed major provision on Rights of free and compulsory education Act for children.

The next session was facilitated by Mr Pushpendra Mehta Field Facilitator on how we can teach the children through Rhymes, story telling and games. Various game, poems were performed by Mr Mehta and participants enjoyed the session.

A group activity was facilitated by MKS on identification of shapes and recognize surrounding objects according shapes, cutting the shapes, pasting on paper and make an object and also discussed on the concept of shapes and color of objects generally found at household. He also facilitated a session on solve the puzzles individually and explained that these types of activity develop the logical thinking of a child and child will enjoy it.

After that a session was facilitated by KJA on the child psychology (How a child learns) in brief and had a discussion on the development of a child, how to measure the development in a child at home by literate or illiterate parents. He detailed the development of a child as Physical Development, Mental growth and Intellectual growth. He discussed with the participants how a parents can help the children in learning at home. At a primary stage, a child should learn sitting, speaking, identifying voices, understand after hearing and follow the instructions. The child should understand on relation, comparison, shape and things identification, counting at household level and parents can support him to learn using household items or materials etc.

After this session, a couple activity was facilitated by MKS providing a paper to the parents sitting in pair and said for draw a picture of the future for their child. Each parents presented their drawing and dreams for their children one by one.

At the end of the day, Ms Sanju Massar delivered her thank to the participants and their active participation in the training.
